

Institut Mines-Télécom

JOIN THE TOP TIER

OF FRENCH ENGINEERING
AND MANAGEMENT

A GROUP OF ELITE
GRADUATE SCHOOLS

MANAGED BY
THE MINISTRY OF INDUSTRY

CLOSE LINKS WITH
LEADING COMPANIES

DEDICATED TO INNOVATION

THE NUMBER-ONE GROUP

OF ENGINEERING AND MANAGEMENT
GRADUATE SCHOOLS IN FRANCE

IMT, also known as Institut Mines-Télécom, brings together eleven grandes écoles that are among the most demanding and renowned in Europe. Each one is an **acknowledged leader** in its field.

All the schools have vibrant **multicultural campuses** and strong links with the **corporate world**.

In terms of research and teaching, the focus is on **interdisciplinary approaches** spanning digital sciences and engineering technologies.

All the schools foster **innovation** and **entrepreneurship** and also collaborate with first-class research institutions worldwide.

Whether you're aiming for a career in academia, R&D or management, you'll find all the skills and connections you need right here.

WHAT ARE GRANDES ÉCOLES?

France's grandes écoles are elite graduate schools, most established by public bodies, that sit alongside the mainstream education system.

Entry is on merit, standards are high and many students go on to high-profile positions in business, government and academia.

IMT's graduate schools are among the best grandes écoles in France. Beginning 2017, to strengthen their position as key players, Mines Nantes and Télécom Bretagne merged to become IMT Atlantique; Mines Douai and Télécom Lille merged to become IMT Lille Douai.

IMT ATLANTIQUE | IMT LILLE DOUAI | MINES ALBI | MINES ALÈS | MINES NANCY | MINES PARISTECH | MINES SAINT-ÉTIENNE | TÉLÉCOM ÉCOLE DE MANAGEMENT | TÉLÉCOM PARISTECH | TÉLÉCOM SUDPARIS | EURÉCOM

AT A GLANCE

A **well-established institution** under the authority of the French **Ministry for the Economy, Industry and Digital Affairs**

13,700 students and **1,400** teachers

33% international students

500 academic partners
Including MIT, Columbia, Princeton, Technion, Tsinghua University and many more

FIELDS OF STUDY

Master of Science in Engineering

The Master of Science in Engineering (Diplôme d'ingénieur) provides a Major in Engineering with a Minor in the indicated field of study.

Master of Science

The Master of Science focuses on the indicated field of study as a Major.

Post Master

These degrees enable holders of a master-level degree to gain complementary or specialized skills and knowledge.

WHAT STUDENTS SAY

Studying in France was so different from what I was used to at home. There are no more than 30 students in each class, so we all get much more resource. What's more, IMT Lille Douai fosters team spirit. They didn't just give me knowledge; they gave me the desire to work, and showed me how. Today, I'm working for Valéo here in France, and I hope to carry on for two more years. Back in my country, there are great opportunities for people who have studied the environment, automotive and supply-chain sectors in France.

Chunlong (China)

My time at Mines Saint-Étienne was both stimulating and wide-ranging, and it paid off as soon as I started work. In oil, where I work, change is constant because there are so many unpredictable factors: conflict, politics, accidents, legislation. You have to be flexible, able to prioritize and above all technically knowledgeable. My training gave me everything I needed to embark on my adventure.

Raoul (Lebanon)

My interest in innovation was born at Télécom ParisTech and has grown and grown since then. I'd always wanted to start my own company. During an internship I realized I could combine that with my interest in research, by starting an innovative firm. Fortunately, innovation is exactly what Institut Mines-Télécom is all about. I learned so much about it there.

Mike (Brazil)

OUR CHARTER

All IMT's graduate schools have committed to a charter on welcoming and supporting students:

- We'll give you all the information and help you need to obtain visas and find accommodation.
- We'll offer advice on day-to-day formalities such as insurance, banking and how to obtain rent supplements.
- We'll help you find an internship.
