

OBJECTIVES - ENVIRONMENT

The MSc in International Management is a rigorous academic program that provides managers with the skills required to occupy decision-making roles within private companies or public bodies.

Our graduates are equipped with the skills to face tomorrow's challenges:

- > Organizational changes within businesses, caused by the advent of the ITC era, require professionals who are able to integrate technical constraints into their managerial reasoning
- > Internationalization of processes and exchanges requires businesses to employ only those managers who are capable of managing this flow of information

This MSc places particular emphasis on international management.

PROGRAM

24 months: full-time course program based on core modules, an area of specialisation and is completed by validation of a thesis.

COMPETENCES ACQUIRED

Students acquire the analytical and technical tools required to deal with complex financial arrangements. Students learn to manage the different stages of marketing a product or service: design, price positioning, communication, choice of distribution network... to satisfy the objectives of the business.

Students will:

- > Develop concepts of economic theory while retaining a managerial approach to decisionmaking
- > Study the practices and principles of Strategic Management applied to the firm, the industry, its longterm strategic management, resources and skills and its desire to expand
- > Gain knowledge of the interaction between departments in a business: human resource management for the production and distribution of goods or services, onlinemanagement, e-commerce, etc
- > Learn to optimize the performance of internal organization by counting on the skills of their workforce, particularly in the context of international activity, and the challenge to integrate the differences and similarities between groups and individuals to facilitate exchanges

STRONG POINTS OF THE PROGRAM

The MSc in International Management is a highly coveted degree recognized in the United States, Great Britain and increasingly in Asia. Institut Mines-Télécom Business School's program is designed for both international managers specialized in information systems and candidates interested in developing research capabilities.

ADMISSION REQUIREMENTS

Bachelor's (or equivalent undergraduate) Degree.

English test requirements:

- > IELTS 6.0
- > TOEIC 750
- > TOEFL 78

APPLYING

Online, full application file—go to the website

www.imt-bs.eu

This program is registered as a DNM (Diplôme National de Master) as "Master Management de l'Innovation".
RNCP (National Register for Professional Certification) n°29014. Level I. CPF n°220898.

DIVERSITY IS A KEY TO THE PROGRAM

- > Diversity among students: over sixty nationalities are represented on campus
- > Diversity on the campus : where "managers" study with "engineers" from Telecom SudParis, its sister school in engineering
- > Professional diversity: students find jobs after graduation in finance, consulting, marketing, human resources as well as professions related to IT

A small entering class allows students to study closely with faculty (faculty – student ratio is 1:10).

Students obtain paid internships.
