### The Institut Mines-Télécom Board of Directors

The Board of Directors consists of 30 members:

- A chairman
- Eight government representatives
- Nine qualified individuals including the chairman and three former students
- Thirteen elected members: staff and student representatives

Olivier Huart, Chairman of the Institut Mines-Télécom Board of Directors: *"I am honored by the trust that has again been placed in me through this appointment as Chairman of the Board of Directors. This is all the more meaningful for me as a former graduate of an Institut Mines-Télécom school. The teams are very committed, and I am proud to be able to support them in implementing the overall Institut Mines-Télécom strategy for 2023-2027 with a focus on key*

*issues for our society: digital, ecological and industrial transitions and the achievement of ambitious objectives.”*

**About Institut Mines-Télécom** [www.imt.fr/en](http://www.imt.fr/en)

Institut Mines-Télécom is the leading public group of French engineering and management schools to be placed under the supervisory authority of the Ministry of the Economy, Finances and Industrial and Digital Sovereignty. It is a public research and higher education institution made up of eight public graduate schools: IMT Atlantique, IMT Mines Albi, IMT Mines Alès, IMT Nord Europe, Institut Mines-Télécom Business School, Mines Saint-Étienne, Telecom Paris and Telecom SudParis as well as two subsidiary schools: EURECOM and InSIC. It leads and develops a rich ecosystem of partner schools and economic, academic and institutional partners and players in training, research and economic development. Created to meet France's needs in economic and industrial development since the 19th century, Institut Mines Télécom's graduate schools have supported all the communications and industrial revolutions. Through its research and its training of engineers, managers and PhD students, Institut Mines-Télécom tackles the major industrial, digital, energy and environmental challenges in France, Europe and around the world. Today, Institut Mines-Télécom and its 10 schools are imagining and building a world that combines science, technology and economic development with a respect for the planet and the people who live on it. It is double Carnot certified and trains 13,600 students every year.
